1. **Player vs. Player (PvP):** Users produce or sign up with lobbies, set a wager amount, and bet a live challenger. The platform takes a small commission (called the "rake").
2. **Player vs. House (PvH):** Users bet a Random Number Generator (RNG) or a house-backed bot.

Due to the fact that the payments for a basic three-option game are straightforward, casinos and platforms adjust the risk and benefit through multipliers, side bets, or tournament structures.
