Before the first call, sit where the child will sit and open the lesson link on the same device. Check that the child can hear a quiet voice and see a full ***online Quran tuition UK*** line of https://education.clickdo.co.uk/online-quran-tuition-launches-new-online-islamic-studies-childrens-course/ Arabic without leaning towards the screen. Ask the teacher which page or primer to have ready. Leave time for introductions so the first experience is a conversation as well as a reading exercise.
