What is Crazy Time?

At its core, Crazy Time is a live dealership game show hosted by charming speakers in a dynamic, state-of-the-art studio. The central function of the game is a massive, upright mechanical wheel divided into 54 sectors. Gamers put bets on the segments where they think the wheel will stop.

What sets Crazy Time apart from standard table video games is its fusion of RNG (Random Number Generator) slots and live interaction. Every spin of the primary wheel is accompanied by the "Top Slot," a mini-slot device located above the wheel that can appoint random multipliers to particular wagering sections, dramatically increasing the potential payment.

The Game Segments Explained

The 54 segments on the wheel are divided between numbered bets (1, 2, 5, and 10) and 4 unique benefit rounds. Here is how the wheel is dispersed:

Segment/ Bonus Variety of Segments on Wheel Payment/ Multiplier Potential **Number 1** 21 1:1 **Number 2** 13 2:1 **Number 5** 7 5:1 **Number 10** 4 10:1 **Coin Flip** 4 Variable (as much as 5,000 x) **Cash Hunt** 2 Variable (approximately 10,000 x) **Pachinko** 2 Variable (approximately 10,000 x) **Crazy Time** 1 Variable (approximately 20,000 x)

The Four Immersive Bonus Rounds

The primary motorist of enjoyment in Crazy Time is its four bonus offer games. When the wheel stops on a reward segment, all gamers who put a bet on that section are carried from the primary studio into a distinct augmented-reality minigame.

1. Coin Flip

The simplest of the perk rounds, this game includes a digital coin with a red side and a blue side.

- **How it works:** Each side is appointed a random multiplier before the flip. The coin is immediately flipped by a maker, and whichever side lands deal with up awards the matching multiplier to the gamer's bet.

2. Money Hunt

This perk round takes players to a huge virtual shooting gallery screen featuring 108 random multipliers hidden behind various symbols (like a cactus, a target, or a constable's hat).

- **How it works:** Players are provided a restricted quantity of time to aim and fire a cannon at a symbol of their choice. When the timer expires, all signs reveal their surprise multipliers, and the player gathers the multiplier they hit.

3. Pachinko

Influenced by the traditional Japanese arcade video game, Pachinko includes a glowing, vertical wall filled with physical pegs.

- **How it works:** The host drops a glowing puck from the top of the wall. As the puck cascades downward, bouncing off the pegs, it eventually lands in among the landing zones at the bottom. Each zone consists of a multiplier or a "DOUBLE" indication, which doubles all multipliers on the board and activates a re-drop.

4. Crazy Time

The supreme reward round takes gamers behind a red door into a surreal, vibrantly colored virtual wonderland including an enormous secondary wheel.

- **How it works:** Players need to pick among three flappers (Green, Blue, or Yellow). The host presses a giant red button to spin the huge wheel. Whichever section the picked flapper points to when the wheel stops is the multiplier granted. If the wheel arrive on "DOUBLE" or "TRIPLE," all multipliers on the wheel are doubled or tripled, and the wheel spins once again up to an optimum cap of 20,000 x.
