Before every single spin of the primary wheel, a secondary two-reel slot machine located directly above the wheel spins at the same time.

- **Reel 1** displays among the betting sections (numbers or bonus video games).
- **Reel 2** screens a random multiplier ranging from **2x up to 50x**.

If the symbol on Reel 1 lines up horizontally with the multiplier on Reel 2, that multiplier is used to that particular bet. If the wheel **Crazy Time Demo Casino** arrive at that result, any winning bets for that section are multiplied appropriately. If a multiplier arrive at a bonus offer game, the multiplier applies to all values inside that benefit round, setting the stage for potentially huge payments.

Dive Into the Four Bonus Rounds

The real magic-- and the highest potential payments-- of *Crazy Time* lie within its 4 bonus video games. Activating one of these rounds transports gamers from the primary studio into a high-production increased reality or physical set.

1. Coin Flip

- **Frequency:** 4 segments on the wheel.
- **How it works:** A simple red and blue coin is flipped by an automated maker. Before the flip, each side of the coin is designated a random multiplier by the system. Whichever color lands face up determines the winning multiplier for all players who bank on Coin Flip. If the multipliers are remarkably low, a "Rescue Flip" can sometimes be set off for another chance.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** Players deal with an enormous virtual screen including a gallery of 108 random multipliers hidden behind shooting targets (such as a cactus, a chef's hat, or a target). A countdown timer begins, and each player must use their cursor (or touchscreen) to aim and fire a cannon at a target of their option. When time expires, all cannons fire, exposing the individual multipliers behind the chosen targets.

3. Pachinko

- **Frequency:** 2 sectors on the wheel.
- **How it works:** Inspired by the standard Japanese arcade game, this benefit round features an enormous physical Pachinko wall filled with pegs. The host drops a radiant puck from the top of the board. As the puck waterfalls downward, bouncing off the pegs, it eventually lands in among the slots at the bottom, which shows a multiplier. If the puck lands in a **"DOUBLE"** slot, all multipliers at the bottom of the wall double, and the host drops the puck again for even bigger rewards.

4. Crazy Time

- **Frequency:** 1 section on the wheel.
- **How it works:** The supreme bonus offer round. The host opens a red door, leading players into a lively, whimsical virtual world controlled by a huge virtual wheel containing 64 sectors and three flappers (Green, Blue, and Yellow).
- **The Process:**

1. Players select one of the three flappers (Green, Blue, or Yellow) before the wheel is spun.
2. The presenter presses a giant red button to spin the huge wheel.
3. When the wheel stops, the multiplier suggested by the player's chosen flapper is awarded.
4. If the flapper points to a **"DOUBLE"** or **"TRIPLE"** sector, all multipliers on the wheel double or triple, and the wheel spins once again-- approximately an optimum cap of **20,000 x**.
