What is Crazy Time?

At its core, Crazy Time is a live game show developed around an enormous, vertically mounted 52-segment wheel. Hosted by an energetic, live speaker, the game happens in a vibrantly colored, Willy Wonka-esque studio. The primary goal is simple: players position bets on which section the wheel will stop on.

On every spin, this slot creates a random multiplier for one of the wagering segments. If the wheel stops Crazy Time Demo Casino on that sector and the benefit or payout is triggered, the multiplier is applied, resulting in possibly huge payouts.

The Four Exciting Bonus Rounds

The main tourist attraction of Crazy Time is its 4 bonus offer features. Triggering among these mini-games transitions the gamer from the main studio into an interactive digital world.

1. Coin Flip

The most basic of the four rewards. A coin with a red side and a blue side is tossed immediately by a machine. Before the flip, multipliers are randomly assigned to both sides of the coin. Whichever color lands deal with up wins the player that assigned multiplier.

2. Cash Hunt

This bonus game looks like a digital shooting gallery. A massive screen shows 105 random multipliers concealed behind various signs (like a cactus, a target, or a chef's hat). Players are offered a cannon crosshair to objective and fire at a sign of their option before a countdown timer expires. As soon as time runs out, all signs expose their hidden multipliers, and the player gathers the one they shot.

3. Pachinko

Motivated by the conventional Japanese arcade video game, this round features a glowing Pachinko wall filled with physical pegs. The speaker drops a puck from the top of the board, and it bounces randomly down the pegs up until it lands at the bottom in among several multiplier slots.

- **Unique Feature:** If the puck lands in a "Double" slot, all multipliers at the bottom of the wall double, and the puck is dropped again for an even larger prize.

4. Crazy Time

The supreme perk round. Gamers go through a red door into a surreal, huge virtual world featuring an enormous 64-segment wheel. Each player needs to choose among 3 flappers (Green, Blue, or Yellow). The presenter spins the wheel, and whichever section the selected flapper indicate is the reward.

- **Unique Features:** Like Pachinko, this wheel consists of "Double" and "Triple" segments. If a flapper arrive on one of these, the multipliers on the wheel boost, and the wheel is re-spun, paving the way for the game's maximum promoted payout of 160,000 x your bet.
