

For parents whose children are just beginning violin lessons, or for adult learners who want to try the instrument before committing to a purchase, LVL Music Academy offers violin rental services as part of their comprehensive one-stop music hub offering in Singapore. Renting a violin before buying is a sensible approach, particularly for young beginners whose arms will grow and who may need to move up in instrument size several times **violin store in Singapore** before reaching a full-size violin. LVL's rental instruments are maintained to a high standard, ensuring that students learn on instruments that are properly set up and genuinely playable rather than cheap instruments that make learning unnecessarily difficult. The rental process at LVL is straightforward. Customers visit the shop at 17 Yuk Tong Ave, are assessed for the correct instrument size, and are set up with a suitable violin and bow. The team advises on care and maintenance, and rental customers can upgrade their instrument size as needed throughout the rental period.
