- **Squander:** Players can stop at any time to protect their earnings, adding a psychological layer of "danger vs. benefit."

3. **Speed:** Rounds can last as little as 3 seconds, making it ideal for players with short windows of time.

Techniques for Playing Mystery Mines

3. The "Stop-Win" Goal

Set a predefined earnings target for each round. For example, if you wager £ 1, set an objective to squander when you struck £ 1.50. Once you accomplish this, stop the round immediately. This prevents the "greed element" from triggering you to click one too numerous tiles and losing everything.

Necessary Best Practices

- **Prevent "Chasing":** If you lose a round, do not immediately increase your bet to "win it back." This is the fastest way to lose your total capital.
