What is Big Bass Crash?

At its core, Big Bass Crash is a multiplayer social betting video game built on a "crash" or "burst" mechanic. Unlike standard online slots where the result is figured out instantly upon pushing a spin button, crash video games give the gamer active control over when to collect their jackpots.

The video game is set on a tranquil, sunlit lake. Once a betting round begins, a fisherman sets off in his motorboat, and a multiplier counter begins ticking upward from 1x. As the boat moves even more across the lake, the multiplier increases-- in some cases reaching massive heights, but other times crashing quickly.

The goal is basic: **Cash out before the crash happens**. If a player effectively squanders before the boat stops, they win their stake multiplied by the present worth. If the boat crashes before they gather, the bet is lost.

Key Features of the Game
