- **The Impact:** Peeker's advantage feels different, and registration is visibly crisper. Response times and crosshair positioning are more crucial than ever.

Dynamic Volumetric Smokes

Smokes are no longer fixed, opaque spheres. They are now dynamic 3D volumetric objects that engage with the environment, lighting, and gunfire.

Round Type Recommended Purchases Goal **Handgun Round** Armor, Utility, or upgraded pistols (P250, Tec-9, Five-SeveN) Secure early momentum and cash benefit. **Eco Round** Deagles, P250s, or light energy; no main rifles Cause economic damage, take weapons, conserve for the next round. **Force Buy** SMGs, Shotguns, or

Galil/FAMAS with partial armor Capture the opponent off-guard when they expect an eco; break their streak. **Full Buy** Assault Rifles (AK-47/ M4), Full Armor, Helmet, Full Utility Secure site control, win the round decisively.

2. Utility Synergy

Throwing utility arbitrarily wastes valuable resources. Effective teams coordinate their utility to attain particular objectives:

- **Flashbangs:** Pop-flashes that detonate immediately in the opponent's field of vision, denying them a chance to avert.
- **Molotovs/Incendiaries:** Used to clear tight angles (like "Newell" on Inferno or "Banana") and delay enemy presses.
- **Smokes:** Block sniper lanes and isolate bomb sites during execution.

3. Map Control and Defaulting

Instead of rushing a site blindly at the start of every round, experienced teams develop map control (defaulting).

- Spreading out throughout the map requires the CTs to expose their positioning.
- Gathering details permits the T-side to turn quickly toward the weakest point of defense.
