What is a CS: GO Case Battle?

A case battle is a multiplayer video game mode hosted on third-party CS2 skin gambling and trading websites. Unlike opening cases alone in the video game client, a case battle permits multiple gamers (usually in between two and four) to open the specific same set of cases at the same time.

The rules are simple:

1. **Buy-in:** All participants contribute a set quantity of cases, moneyed by their site balance.
2. **The Drop:** The system opens the cases for all players round by round. Every item dropped is provided a real-world financial worth based upon Steam Market or third-party pricing.
3. **The Winner:** At the end of the battle, the total worth of all skin drops for each player is determined. The player with the highest overall worth wins **all** the products dropped in the match, including those of their opponents.

If you are fortunate, you can win double, triple, or perhaps ten times your initial buy-in. If you lose, you lose the expense of the cases.
