|------------|--------------|--------------|----------------------|-------------|---------------|---------------------|--------------------|
| Grid Size  | No. of Mines | Danger Level | Multiplier Potential | 5x5 1       | Extremely Low | Slow, steady growth | 5x5 3              |
| Low/Medium | Balanced     | 5x5 10       | High                 | Fast growth | 5x5 24        | Extreme             | "Jackpot" possible |
