What is the Aviator Game?

Aviator is a social multiplayer crash game. Unlike standard slot machines that rely solely on spinning reels with predetermined paylines, Aviator presents a dynamic, real-time interactive aspect.

The facility is simple: a red aircraft removes, and as it ascends, a multiplier coefficient increases. The aircraft can fly away at any unforeseeable minute. The goal of the player is to put one or two bets before the round begins and **money out** before the aircraft flies away (crashes). If a player cashes out effectively, their stake is multiplied by the present coefficient. If the aircraft flies away before they cash out, the bet is lost.
