What is Crazy Time?

At its core, Crazy Time is constructed around an enormous, 64-segment mechanical cash wheel operated by a live presenter. The game happens in a brilliantly colored, whimsical studio that feels more like a set from a children's tv show than a gaming floor.

Gamers put bets on numbers (1, 2, 5, or 10) or on one of the four perk games (Coin Flip, Cash Hunt, Pachinko, and Crazy Time). If the wheel stops on the sector a player has wagered on, they win a Crazy Time payout or gain entry into an interactive benefit round.

If the main wheel arrive on the specific matching segment, the payout for that number or the multiplier for that bonus offer round is improved accordingly. This is where huge payments can start to form before gamers even reach a bonus offer round.

The Four Extravagant Bonus Rounds

The real heart and soul of Crazy Time are its 4 perk rounds. These mini-games transport gamers away from the main wheel and into immersive, computer-generated bonus environments.

1. Coin Flip

The easiest of the four benefit rounds, Coin Flip provides a quick and straightforward mechanic.

- **How it works:** A coin with a red side and a blue side is placed in a mechanical flipper. Each side is assigned a random multiplier before the flip.

3. Pachinko

Influenced by the standard Japanese arcade video game, the Pachinko bonus offer round is all about gravity and thriller.

- **How it works:** The speaker climbs to a platform and drops a puck down a large board filled with physical pegs. At the bottom of the board are numerous multiplier worths, together with a "DOUBLE" zone.
- **The Outcome:** The puck bounces down the board and lands in one of the multiplier slots. If it lands on "DOUBLE," all multipliers at the bottom of the board double in worth, and the presenter drops the puck a second time. This can repeat till the optimum multiplier limitation is reached.

4. Crazy Time

The holy grail of the game, Crazy Time takes gamers behind a huge red door into a surreal, Alice-in-Wonderland-style virtual world.

- **How it works:** Players are faced with a massive virtual wheel including 64 sections filled with large multipliers and "DOUBLE" or "TRIPLE" wedges. Before the wheel spins, gamers must pick one of three flippers (Green, Blue, or Yellow).
- **The Outcome:** The presenter presses a big red button to spin the wheel. Whichever section aligns with the player's chosen flipper determines their prize. If the wheel lands on "DOUBLE" or "TRIPLE," all multipliers on the wheel are doubled or tripled, and the wheel spins once again. This procedure can repeat, possibly resulting in the game's optimum promoted payment of 20,000 x the bet.

Strategies and Approach
