The Four Bonus Rounds Explained

The primary attraction of Crazy Time depends on its 4 perk rounds. These mini-games provide the greatest multipliers and the most visually interesting gameplay.

The easiest of the bonus rounds. A coin with a red side and a blue side is flipped by a maker. Before the flip, random multipliers are assigned to each side. Whichever side lands face up awards the gamer that matching multiplier.

Influenced by the standard Japanese arcade video game, a glowing puck is dropped from the top of a large board filled with pegs. The puck bounces down and lands in one of the landing zones at the bottom, each featuring a multiplier. If it lands on a "Double," all multipliers on the board double, and the puck is dropped again.

4. Crazy Time

This is the holy grail of the video game. Gamers go into a virtual, surreal world behind a red door, welcomed by an even larger giant wheel.
