

Transforming Urban Trees into Usable Wood Products

At Urban Loggers, we believe in the importance of green practices. As a proud member of the Greater Milwaukee community, based right in the heart of Brookfield, we take pride in our unique approach to tree removal. Instead of simply disposing of removed trees by chipping them into mulch, we offer a sophisticated solution that has a positive impact on both the local ecosystem and your property. Our urban logging service allows us to mill your unwanted trees into tailored lumber, live-edge slabs, and quality firewood.

From Tree to Timber: The Urban Logging Advantage

When trees are cut down in residential or commercial areas, they often end up in landfills, contributing to waste and losing their potential. At Urban Loggers LLC, we believe that every tree has a story and a purpose. Our skilled professionals carefully assess each tree, ensuring we optimize its potential value. Through our on-site milling service, we transform your trees into beautiful lumber and live-edge slabs right where they stand. This method is not only quick, but it also minimizes transportation emissions and contributes to a greener environment.

Live-Edge Slabs: A Stylish Addition to Your Home

One of the most popular items we offer is live-edge slabs, which are perfect for creating one-of-a-kind furniture pieces or decor items. These slabs showcase the natural beauty and character of the wood, emphasizing its unique grains and imperfections. Whether you're looking to create a stunning dining table, rustic countertops, or even elegant shelves, our team can help you select the right slab from the trees we've milled, ensuring that it fits your

vision and style perfectly. By using wood from urban trees, you not only get a unique design element but also a piece of Milwaukee history embedded in your home.

Quality Firewood: Warmth from Your Own Yard

As the chilly Wisconsin winters approach, having access to quality firewood becomes essential. At Urban Loggers, we provide seasoned firewood sourced from the trees we've harvested and milled. Our firewood is dried and split for [stump grinding](#) the best burning experience, providing you with cozy warmth for those long winter nights. By choosing our firewood, you're not just heating your home; you're also making a sustainable choice that supports local forestry and reduces waste.

In conclusion, partnering with us means investing in a more responsible approach to tree care in the Greater Milwaukee area. By utilizing our urban logging and on-site milling services, you can turn a tree removal project into an opportunity to create beautiful, usable wood products for your home or business. Together, we can reduce landfill waste while enhancing your living space with unique, locally sourced wood. Contact us today to learn more about our services and how we can assist you with your tree care needs.

Urban Loggers LLC

17000 W North Ave, Brookfield, WI 53005

(414) 240-4626

Milwaukee's tree service done right. Urban Loggers LLC provides certified-arborist tree removal, trimming, stump grinding, and 24/7 storm cleanup across Greater Milwaukee — and unlike most crews, we mill your removed trees into lumber and live-edge slabs instead of hauling them to the landfill.
