What Makes a CS: GO Case "Rare"?

A case ends up being rare through a mix of 3 aspects:

- 2. **Low Drop Probability**-- The chance of obtaining the case from a standard in-game drop or objectives is extremely little (often less than 0.5%).
- 3. **High-Value Contents**-- The skins inside are either rare finishes, "Covert" or "Contraband" tier, or limited-edition cooperation designs.

When these elements converge, the case's market rate can skyrocket, often reaching countless dollars.
