Before the wheel stops, the Top Slot generates a random multiplier and assigns it to one of the 8 wagering choices on the wheel.

1. Coin Flip

The most basic of the four bonuses, this round features a coin with a red side and a blue side.

- Each side is designated a random multiplier before the flip.
- The host presses a button to turn the coin, and whichever color lands face-up awards the corresponding multiplier to the gamer's bet.

2. Money Hunt

This is a huge interactive shooting gallery featuring a screen with 108 random multipliers concealed behind various signs (like a cactus, target, or chef's hat).

- Players utilize a virtual crosshair to aim and shoot at a sign of their option before a countdown timer ends.
- As soon as time runs out, all signs reveal their concealed multipliers, and the gamer wins whatever worth they shot.

3. Pachinko

Motivated by the conventional Japanese arcade video game, Pachinko features a big wall filled with physical pegs.

- The host drops a puck from the top of the board.
- The puck bounces randomly down the pegs till it lands in among the slots at the bottom, which contains a multiplier.
- If the puck lands in a **"DOUBLE"** slot, all multipliers on the board double, and the puck is dropped again for an even larger payout.

4. Crazy Time

The crown jewel of the game. When activated, the host opens a red door leading into a surreal, brightly colored virtual world featuring a huge, 64-segment mega-wheel.

- Players must pick one of 3 flappers: **Green, Blue, or Yellow**.
- The host spins the wheel, and the flapper the gamer chosen determines their prize.
- This wheel includes **"DOUBLE"** and **"TRIPLE"** segments. If the flapper points to among these, all multipliers on the wheel increase, and the wheel spins again-- allowing wins to scale as much as the video game's optimum cap of 500,000 x!

Methods for Playing Crazy Time

While Crazy Time is eventually a game of chance determined by RNG and physics, gamers typically employ various betting strategies to manage their bankroll and maximize their time playing.

- **The Bonus-Only Strategy:** Ignoring the numbers totally and placing small bets specifically on the 4 bonus offer rounds (Coin Flip, Cash Hunt, Pachinko, and Crazy Time). This technique is high-risk, high-reward, as it relies on striking the reasonably unusual reward sections to see a return.
